

Directions for submitting MATLAB files to my P-Drive
These are tentative and, in fact, may not work

1. log on to any university machine
2. go to programs from the start button
3. go to datadisk and others
4. click on courseware data disk
5. enter sas56
6. hit enter or maybe click on continue.
7. Now click on my computer
8. In Network Drives click on sas56 on 'psbd ...'
9. Click on public
10. You can place files in the directory with your name.
